## Message from the President

Dear APICS Phoenix Chapter Members;

In 2017-2018 we will be striving to service certified members and members looking for additional Supply Chain learning. These two membership types will receive focused learning to help achieve these goals.

**Certified Members:** We are offering monthly professional development meetings to allow the member to sustain their certification. In addition, in partnership with REV AZ we are offering professional supply chain workshops that are subject matter focused.

**Members:** We offer certification classes at Rio Salado college for CPIM, CSCP and CLTD. These

classes are to add to your professional development and provide the member the ability to set themselves out from the crowd by achieving supply chain certification. In addition, in partnership with REV AZ we are offering professional supply chain workshops that are subject matter focused.

Robert Lundeen, CPIM

## Education

### Certification Opportunities

**CPIM part 2:** This is a thirteen week, 39 hour class starting on 10-24-17. The new CPIM certification classes have been reduced to 23 weekly sessions instead of 42 under the old format. Curriculum includes: Master Planning of Resources, Detailed Scheduling and Planning,

Production Execution & Control, and Strategic Management of Resources. Cost is \$2100 for plus members an \$2400 for non members.

Go to <http://apicsphoenix.wildapricot.org/event-2671073>

to register to attend.

**Certification in Logistics, Transportation and Distribution (CLTD).** This focuses on the process of global logistics, product distribution, warehouse and delivery. This class will start in November and we will need a minimum of 5 students. CSCP will be provided on request Pricing is based on membership type and can be provided on request.

## Partner Events with REV AZ

[information@apicsphoenix.org](mailto:information@apicsphoenix.org)

The APICS Phoenix Chapter goal is to improve service to our members and ensure they have continuous learning opportunities. One strategic goal is to develop a strategic supply chain panel that we can offer question and answer sessions to assist our members in career development and provide companies with the opportunity to recruit professional supply chain talent.
